

MonoDust 15000, Particle material: Siliciumdioxid, Particle diameter (mean): 1.28 µm

Art. ID	PL-00002046-001
Unit	5 g (powder)/ bottle 1000 mL
Deliverydetails	No Dangerous Good /not restricted

Description

Test dust for the calibration of aerosol sensors. Monodisperse particles for the calibration of particle measuring devices. Particle diameter (mean): 1.28 µm
