

9-(4-Acetoxy-2-acetoxymethyl-but-1-yl)-2-aminopurine

Art. ID TRC-A164165-250MG

Unit 250 mg

Description

Application Notes: 9-(4-Acetoxy-2-acetoxymethyl-but-1-yl)-2-aminopurine is an impurity of Famciclovir. It can be used to prepare antiviral purine-containing nucleoside analogs. /// References: Lindborg, B. G., et al.: PCT Int. Appl. WO 8910923 A1 19891116 (1989)
