

1-(Acetylthiomethyl)cyclopropaneacetonitrile

Art. ID TRC-A188755-5G

Unit 5 g

Description

Category: Miscellaneous Reagents, Sulfur and Selenium Compounds /// Application Notes:

1-(Acetylthiomethyl)cyclopropaneacetonitrile is used as a reagent in the synthesis of benzothiazole and thiazole substituted benzyl alcohols as potent LTD4 antagonists. /// References: Lau, C.K., et al.: Bioorg. Med. Chem. Lett., 5, 1615 (1995)
