

3,6-Anhydro-D-glucitol

Art. ID TRC-A561795-50MG
Unit 50 mg
Deliverydetails to be checked

Description

Application Note: 3,6-Anhydro-D-glucitol is used as a reagent in the selective conversion of concentrated microcrystalline cellulose to isosorbide over Ru/C catalyst.

Text/Information	Analyte/Parameter	CAS number	Concentration/Value	Unit	Method	Source
