

6-Amino-2-bromo-3-methoxybenzoic Acid Hydrochloride

Art. ID TRC-A602095-25MG
Unit 25 mg

Description

Application Notes: 6-Amino-2-bromo-3-methoxybenzoic Acid Hydrochloride is used as a reagent in the synthesis of quinazoline thymidylate synthase inhibitors. /// References: Webber, S.E., et al.: PCT Int. Appl. WO 9320055 A1 19931014. Oct 14, 1993
