

4-Amino-4-piperidinecarbonitrile

Art. ID TRC-A627930-5G
Unit 5 g

Description

Category: Aromatics, Heterocycles, Pharmaceuticals, Intermediates and Fine Chemicals /// Application Notes: 4-Amino-4-piperidinecarbonitrile, is an building block used for the synthesis of more complex pharmaceutical compounds, such as 4-(Phenylamino)-1-benzyl-4-piperidinecarbonitrile, used as modulators of muscarinic receptors for treatment of CNS disorders. /// References: Coghlan, M., et al.: J.
