

5alpha-Androstanedione-d5

Art. ID TRC-A637612-25MG
Unit 25 mg

Description

Application Notes: 5alpha-Androstanedione-d5 is an isotope labelled compound of 5alpha-Androstanedione (A637610). 5alpha-Androstanedione is a metabolite of Androstendione (A637550), is also an important intermediate in the conversion of Androstenedione to Androstanolone (A637540). /// References: Milewich, L. et al.: J.
