

(betaS)-beta-Aminobenzenepropanoic Acid Ethyl Ester

Art. ID TRC-A591475-5G

Unit 5 g

Description

Category: Chiral Reagents, Pharmaceuticals, Intermediates and Fine Chemicals /// Application Notes: (betaS)-beta-Aminobenzenepropanoic Acid Ethyl Ester in the synthesis of CCR5 antagonists in the treatment of HIV. In addition, it is used in the preparation of 1,4-Benzoxazin-3(4H)-one derivatives showing antithrombotic activity. /// References: Barber, C. et al.: Bioorg. Med. Chem.
