

2-Amino-N,N,3-trimethyl-butanamide-d6

Art. ID TRC-A630862-25MG
Unit 25 mg

Description

Category: Amino Acids and Derivatives, Inhibitors, Isotope Labelled Compounds /// Application Notes:

2-Amino-N,N,3-trimethyl-butanamide-d6 is the isotope analog of 2-Amino-N,N,3-trimethyl-butanamide.

2-Amino-N,N,3-trimethyl-butanamide is a reagent used in the preparation of dipeptides under abiotic conditions and stereochemistry preference in competitive peptide coupling reactions. /// References: Hill, R., et al.: Org.
