

beta-L-Aspartylglycine-13C2,15N

Art. ID TRC-A788982-25MG
Unit 25 mg

Description

Category: Amino Acids and Derivatives, Amines, Isotope Labelled Compounds /// Application Notes: Isotope labelled beta-L-Aspartylglycine is a dipeptide that have been used to study glycosylasparaginase-catalyzed synthesis and hydrolysis of beta-aspartyl peptides. /// References: Mole.
