

Acidihydroergocristine

Art. ID TRC-A189840-25MG
Unit 25 mg

Description

Application Note: Acidihydroergocristine is an epimer of 9,10-Dihydroergocristine Methanesulfonate (D446440) and an impurity of dihydroergocristine, a semi-synthetic drug often used for age-related cognitive impairment.
