

L-2-Aminobutanoate Methyl Ester-d5

Art. ID TRC-A602944-250MG
Unit 250 mg

Description

Application Note: L-2-Aminobutanoate Methyl Ester-d5 is an intermediate used in the synthesis of Methyl Ergonovine-d5 Maleate Salt (M304602), which is a labeled metabolite of Methysergide. Semisynthetic ergot alkaloid. Oxytocic.
