

(2S)-2-Amino-4-morpholinebutanoic Acid Dihydrochloride

Art. ID TRC-A618305-250MG

Unit 250 mg

Description

Category: Amino Acids and Derivatives /// Application Notes: (S)-2-Amino-4-(-morpholin-4-yl)-butanoic Acid Hydrochloride is used in the preparation of hydroxamic acids used towards the inhibition of metalloelastase and enzyme dependent conditions.
