

Asperphenamate

Art. ID TRC-A788885-250MG
Unit 250 mg
Deliverydetails to be checked

Description

Application Note: Asperphenamate is an alpha-glucosidase inhibitor isolated from *Penicillium spathulatum*. Asperphenamate exhibits anticancer properties and is used to synthesize N-Benzoyl-O-(N'-(1-benzyloxycarbonyl-4-piperidylcarbonyl)-D-phenylalanyl)-D-phenylalaninol (BBP), an asperphenamate derivative that inhibits human breast carcinoma MCF-7 cell growth.
