

Aureusimine A

Art. ID TRC-A794560-2.5MG
Unit 2.5 mg

Description

Category: Amines, Aromatics, Heterocycles, Pharmaceuticals, Intermediates and Fine Chemicals /// Appearance: Off-White to Pale Yellow Solid /// Application Notes: Aureusimine A is a novel small molecule produced by a non-ribosomal peptide synthetase (NRPS) and is present in every virulent strain of *S. aureus* and Methicillin resistant *S. aureus* (MRSA) and GeneChip data shows upregulation under conditions suggestive that it is an important virulence factor. /// References: Archer, G., et al.: Clin.
