

Aldosterone-13C3

Art. ID TRC-A514701-10MG
Unit 10 mg
Deliverydetails to be checked

Description

Application Note: Labelled Aldosterone. Aldosterone is an adrenocortical steroid which exerts regulatory influence on metabolism of electrolytes and water. Biologically active aldosterone isomer, a mineralocorticoid produced by the adrenal cortex that induces urinary excretion of K⁺ and renal reabsorption of Na⁺. Exists as an equilibrium mixture of the aldehyde and the hemiacetal.
