

1-Amino-1-deoxy-2,3,4-triacetate beta-D-Glucopyranuronic Acid Methyl Ester

Art. ID TRC-A604315-250MG
Unit 250 mg

Description

Category: Amines, Carbohydrates and Derivatives /// Application Notes: 1-Amino-1-deoxy-2,3,4-triacetate beta-D-Glucopyranuronic Acid Methyl Ester is used in biological studies for the inhibitor identification of fibroblast growth factor (FGF-2) binding to heparin and endothelial cells. /// References: Murphy, P. V., et al.: Bioorg. Med. Chem., Lett., 12, 3287 (2002)|
