

(2S)-2-Amino-3,3,3-trifluoro-1-propanol

Art. ID TRC-A630845-1G
Unit 1 g

Description

Category: Aliphatics, Intermediates, Miscellaneous Reagents /// Application Notes:

(2S)-2-Amino-3,3,3-trifluoro-1-propanol, can be used for the preparation of biologically active compounds having therapeutic properties. It can be used for the preparation of 5'-6'-substituted Azasordarin derivatives having antifungal activity. /// References: Serrano-Wu, M. H., et al.: Bioorg. Med. Chem. Lett., 13, 1419 (2003)|
