

Acridine Orange 10-nonyl bromide

Art. ID TRC-A190913-50MG
Unit 50 mg
Deliverydetails /not restricted

Description

Application Notes: Acridine Orange 10-nonyl bromide is a metachromatic dye useful as a mitochondrial probe in living cells. It has been used to analyze mitochondria by flow cytometry, characterize multidrug resistance, and measure changes in mitochondrial mass during apoptosis in rat thymocytes. /// References: Cossarizza, A., Mitochondrial modifications during rat thymocyte apoptosis: a study at the single cell level.
