

### **(+)-cis,trans-Abscisic Acid-L-glutamic Acid**

Art. ID TRC-A110045-25MG  
Unit 25 mg  
Deliverydetails to be checked

#### Description

Application Note: (+)-cis,trans-Abscisic Acid-L-glutamic Acid can be utilized in biological study in studying for preparation and biological activity of amino acid conjugates of abscisic acid. Different sets of ABA-amino acids induces ABA-like responses in different plants.
