

N-Allyl-d5-10-hydroxy-nordihydromorphone

Art. ID TRC-A549637-2.5G
Unit 2.5 g

Description

Category: Chiral Reagents, Drug Analogues, Impurities, Isotope Labelled Compounds, Pharmaceuticals, Intermediates and Fine Chemicals /// Application Notes: N-Allyl-d5-10-hydroxy-nordihydromorphone is a labelled N-Allyl-10-hydroxy-nordihydromorphone (A549635), an impurity of Naloxone (HCl salt, N285000) which is a specific opioid antagonist and narcotic antagonist. /// References: Jasinski, D.R., et al.: J.
