

## **2-(4-Amino-3,5-dichlorophenyl)-2-(isopentylamino)ethanol**

Art. ID TRC-A173590-100MG  
Unit 100 mg

### Description

Appearance: Off-White Solid /// Application Notes: 2-(4-Amino-3,5-dichlorophenyl)-2-(isopentylamino)ethanol is an intermediate in the synthesis of Clenisopenterol (C572700), a beta-agonist residue in foodstuffs sourced from animal meats.
