

2-Amino-3,8-dimethylimidazo[4,5-f]quinoxaline Hydrobromide

Art. ID TRC-A606610-1G
Unit 1 g

Description

Application Note: 2-Amino-3,8-dimethylimidazo[4,5-f]quinoxaline Hydrobromide is an intermediate used in the synthesis of 2-Amino-3,8-dimethylimidazo[4,5-f]quinoxaline (A606600), which is a mutagen found in white meat, increasing the rate of colorectal adenomas.
