

## **beta-Amino-4-octylbenzenebutanol Hydrochloride**

Art. ID TRC-A618715-25MG

Unit 25 mg

### Description

Application Notes: beta-Amino-4-octylbenzenebutanol Hydrochloride is used in the study of antibiotics, such as the immunosuppressive activity. Fingolimod (F805000) impurity. Fingolimod is a derivative of ISP-1 (myriocin), a fungal metabolite of the Chinese herb Iscaria sinclairii as well as a structural analogue of Sphingosine. /// References:
