

N-Acetylquinovosamine

Art. ID TRC-A187980-1G

Unit 1 g

Description

Category: Carbohydrates and Derivatives /// Application Notes: N-Acetylquinovosamine is a reagent for substrate specificity of galactokinase from *Streptococcus pneumoniae* TIGR4 towards phosphorylation of galactose, glucose, and their derivatives /// References: Zou, Y., et al.: Bioorg. Med. Chem. Lett., 22, 3540 (2012)
