

9-[[2-(alpha-L-Alanyloxy)ethoxy]methyl]guanine Hydrochloride

Art. ID TRC-A511100-250MG

Unit 250 mg

Description

Category: Amino Acids and Derivatives, Nucleotides, Bases and Related Reagents, Pharmaceuticals, Intermediates and Fine Chemicals /// Appearance: White Solid /// Application Notes: A prodrug of Acyclovir. Also an impurity in the synthesis of valacyclovir (V085000) /// References: Colla, L., et al.: J. Med. Chem., 26, 602 (1983)
