

N-Acetyltyramine Glucuronide-d3

Art. ID TRC-A189722-25MG
Unit 25 mg

Description

Category: Amines, Aromatics, Carbohydrates and Derivatives, Isotope Labelled Compounds, Metabolites and Impurities, Pharmaceuticals, Intermediates and Fine Chemicals /// Application Notes: Labelled N-Acetyltyramine Glucuronide has been identified as a potential marker for river blindness. This would allow effective treatment of the curable disease. /// References: Globisch, D. et al.: Proc. Natl. Acad. Sci. U S A., 110, 4218 (2013)|
