

3-Amino-5-phenyl-thieno[2,3-d]pyrimidin-4(3H)-one

Art. ID TRC-A617090-100MG
Unit 100 mg

Description

Application Note: 3-Amino-5-phenyl-thieno[2,3-d]pyrimidin-4(3H)-one is a related compound of Barbadin (B118250), a selective beta-arrestin/beta2-adaptin inhibitor that selectively inhibits the interaction between b-arrestin and the b2-adaptin subunit of the clathrin adaptor protein AP2 without affecting the formation of receptor/b-arrestin complexes.
