

Amitifadine-d7

Art. ID TRC-A633372-25MG
Unit 25 mg

Description

Application Note: Amitifadine-d7 is the deuterated form of Amitifadine (A633370), which is used for treating depression and a triple reuptake inhibitor (TRI) that simultaneously interacts with human monoamine transporters (MATs) including hSERT, hNET and hDAT.
