

Scratch test reference material

Art. ID	BCR-692
Unit	coupons
Deliverydetails	No Dangerous Good /not restricted

Description

A reference material certified for critical loads for cohesive/adhesive failures during scratch testing (prEN 1071-3). The reference samples are (30x30x5) mm steel coupons coated with a diamond-like carbon coating (DLC) applied by plasma-assisted chemical vapour deposition. The coupons are distributed in a reusable plastic box containing desiccant.
