

Faujasite type zeolite

Art. ID	BCR-704
Unit	10 g
Deliverydetails	No Dangerous Good /not restricted

Description

Adsorption of argon at the temperature of liquid argon (87K) on a microporous material (faujasite type zeolite) according to DIN 66135-4.

Text/Information	Analyte/Parameter	CAS number	Concentration/Value	Unit	Method	Source
	Micropore volume		0,205	cm ³ /g		
	Median micropore width		0,668	nm
