

## **Slag, CRM, Ferrochromium Slag, Powder**

Art. ID                      SARM-77  
Unit                         100 g (powder)  
Deliverydetails            No Dangerous Good /not restricted

| Text/Information | Analyte/Parameter              | CAS number  | Concentration/Value | Unit | Method | Source |
|------------------|--------------------------------|-------------|---------------------|------|--------|--------|
|                  | Al <sub>2</sub> O <sub>3</sub> |             | 27,5                | %    |        |        |
|                  | CaO                            |             | 3,64                | %    |        |        |
|                  | Cr <sub>2</sub> O <sub>3</sub> |             | 12,5                | %    |        |        |
|                  | Iron (Fe)                      | [7439-89-6] | 5,31 (tot)          | %    |        |        |
|                  | MgO                            | [1309-48-4] | 22,99               | %    |        |        |
|                  | Sulfur (S)                     | [7704-34-9] | 0,32 (tot)          | %    |        |        |
|                  | SiO <sub>2</sub>               |             | 26,8                | %    |        |        |
