

Out of Stock - Item is not available at this time - Thermal Conductivity - Expanded Polystyrene Board

Art. ID NIST-1453
Unit each
Deliverydetails No Dangerous Good /not restricted

Description

This Standard Reference Material (SRM®) is intended primarily for use in the measurement of the thermal conductivity or thermal resistance of insulation materials. NIST-1453 is a high-density expanded polystyrene board certified for thermal conductivity (λ). The SRM can be used in conjunction with ASTM C177, ASTM C518 ,or ASTM C1199. A unit of NIST-1453 consists of a molded, rectangular panel of expanded polystyrene board. The nominal dimensions of the board are 930 mm x 660 mm x 13.4 mm, and the bulk density of the material ranges from 37 kgm-3 to 46 kgm-3.
