

## **Gymnodimine (GYM) standard solution in Methanol**

Art. ID NRC-CRM-GYM-b  
Unit 0,5 mL  
Deliverydetails De Minimis UN1230 (6.1) II E2

### Description

NRC-CRM-GYM-b is a certified calibration solution for the determination of gymnodimine (GYM) by chemical analysis methods. Each ampoule contains approx. 0.5 mL of a solution of GYM in methanol at a concentration of 4.93 ?M. GYM is a member of the cyclic imine group of toxins.
