

Acetaminophen Dimer-d6

Art. ID	TRC-A161237-2.5MG
Unit	2,5 mg
Deliverydetails	No Dangerous Good

Description

Category: Aromatics, Impurities, Isotope Labelled Compounds, Pharmaceuticals, Intermediates and Fine Chemicals
/// Appearance: White to Off-White Solid /// Application Notes: Acetaminophen Dimer-d6 is deuterium labeled Acetaminophen Dimer (A161235). Acetaminophen Dimer is an oxidatively couple dimer of Acetaminaphen (A161220), an analgesic and antipyretic agent used as a pain reliever to treat headache, muscle aches, and arthritis (1). Acetaminophen Dimer along with other p-acetamidophenol analogs were used to determine peroxidase activities (2,3).
