

4-Acetamidophenyl Glycidyl Ether

Art. ID TRC-A161290-100MG
Unit 100 mg
Deliverydetails No Dangerous Good

Description

Category: Aromatics, Heterocycles /// Appearance: White Powder /// Application Notes: 4-Acetamidophenyl Glycidyl Ether is an intermediate in the preparation of cardioselective beta-adrenergic receptor antagonists. /// References: Jones, G. et al.: J. Pharm. Sci., 81, 397, (1992)| Agrawal, A. et al.: J. Pharm. Sci., 66, 887, (1977)
