

Acetovanillone-d3

Art. ID TRC-A164092-10MG
Unit 10 mg
Deliverydetails No Dangerous Good

Description

Category: Aromatics, Inhibitors, Isotope Labelled Compounds, Pharmaceuticals, Intermediates and Fine Chemicals
/// Appearance: White to Off-White Solid /// Application Notes: A naturally abundant compound, isolated from a variety of plant sources. It is an effective inhibitor of NADPH oxidase, and thus shows antioxidant behaviour without interfering with other aspects of the immune system. /// References: Xuan, T., et al.: J. Agric.
