

Acetic Acid-d

Art. ID	TRC-A167639-5G
Unit	5 g
Deliverydetails	ADR Excepted Quantity (EQ) / AIR Excepted Quantity (EQ) UN2789 3 II E2

Description

Application Notes: Isotope labelled Acetic Acid is a common chemical reagent used in a multitude of organic reactions. It is the primary constituent of vinegar, contributing to its distinct taste and odor. It is used in the synthesis of dye-sensitized solar cells. // References: Hara, K. et al.: J. Phys. Chem. 109, 15476 (2005)| Nakayama, T. et al.: J. Biochem., 46, 1217 (1959)|
