

## **N-Acetylpiperazine-d4**

Art. ID TRC-A187247-10MG  
Unit 10 mg  
Deliverydetails No Dangerous Good

### Description

Category: Amines, Heterocycles, Miscellaneous Reagents /// Application Notes: N-Acetylpiperazine-d4 is labelled N-Acetylpiperazine-d4 which was used to prepare (aryl)sulfanyltriazoles with HIV-1 non-nucleoside reverse transcriptase inhibiting activities. It was also used to synthesize diphenylpyrazolecarboxamides as heat shock protein chaperone inhibitors and anticancer agents. /// References: Wang, Z., et al.: Bioorg. Med. Chem. Lett., 16, 4174 (2006)| Brough, P., et al.: J. Med. Chem, 51, 196 (2008)
