

10-O-Acetyl SN-38-d3

Art. ID TRC-A187737-2.5MG
Unit 2,5 mg
Deliverydetails No Dangerous Good

Description

Category: Chiral Reagents, Intermediates, Isotope Labelled Compounds, Metabolites, Pharmaceuticals, Intermediates and Fine Chemicals /// Appearance: Dark Yellow Solid /// Application Notes: 10-O-Acetyl SN-38-d3 is the isotope labelled protected metabolite of Irinotecan (I767500), an DNA topoisomerase inhibitor. /// References: Kunimoto, T., et al.: Cancer Res., 47, 5944 (1987), Shimada, Y., et al.: J. Clin. Oncol., 11, 909 (1993)
