

3-Acetylthio-2-methylpropionic Acid

Art. ID TRC-A188775-250MG
Unit 250 mg
Deliverydetails De Minimis

Description

Category: Aliphatics, Chiral Reagents, Sulfur and Selenium Compounds /// Appearance: White to Off-White Solid /// Application Notes: 3-Acetylthio-2-methylpropionic Acid (Captopril EP Impurity G) is a key intermediate for Captopril (C175750) and other hypertension drugs. /// References: Cushman, D., et al.: Biochem., 16, 5484 (1977), Ondetti, M., et al.: J. Med. Chem., 24, 355 (1981), Tseng, T., et al.: Cancer Lett., 62, 233 (1992)
