

Aluminum Hydroxide, Technical Grade

Art. ID TRC-A575745-25G
Unit 25 g
Deliverydetails No Dangerous Good /not restricted

Description

Category: Miscellaneous Reagents /// Appearance: White Solid /// Application Notes: Aluminum Hydroxide is used as a catalyst in various chemical processes. /// References: Yadav, G. et al.: Ind. Eng. Chem. Res., 52, 10133 (2013)|
