

3'-Aminoacetophenone

Art. ID TRC-A580065-25G
Unit 25 g
Deliverydetails No Dangerous Good /not restricted

Description

Category: Amines, Aromatics, Miscellaneous Reagents /// Appearance: Brown Solid /// Application Notes:
3'-Aminoacetophenone has potential anti-bacterial properties in addition to being used in the synthesis of selective antagonists at human A2B adenosine receptors. As well, it is used in the synthesis of HIV-1 Integrase Inhibitors. ///
