

2-Amino-N-[(1S)-1-(hydroxymethyl)-2-methylpropyl]-3-methoxybenzamide

Art. ID TRC-A601530-250MG
Unit 250 mg
Deliverydetails No Dangerous Good

Description

Appearance: Pale Pink to Pale Purple Solid /// Application Notes:

2-Amino-N-[(1S)-1-(hydroxymethyl)-2-methylpropyl]-3-methoxybenzamide is an intermediate in the synthesis of compounds used as a reagent / catalyst in the total synthesis of the marine natural products halichondrin A, B, and C. /// References: Li, J., et al.: J.
