

## **4-Amino-1-butanol**

Art. ID TRC-A602120-5G  
Unit 5 g  
Deliverydetails ADR Excepted Quantity (EQ) / AIR Excepted Quantity (EQ) UN2735 III E1

### Description

Category: Miscellaneous Reagents /// Appearance: Clear Colourless Oil /// Application Notes: 4-Amino-1-butanol is used in the synthesis of NSAIDs with anti-inflammatory properties. Also used in the synthesis of polyamine transport ligands with specificity against human cancers allowing easy access to specific cancer cells. /// References: Majumder, J. et al.: Langmuir, 29, 10254 (2013)| Muth, A. et al.: J. Med. Chem., 56, 5819 (2013)
