

2-Amino-3,5-dibromopyrazine

Art. ID TRC-A604635-2.5G
Unit 2,5 g
Deliverydetails ADR Excepted Quantity (EQ) / AIR Excepted Quantity (EQ) UN2811 III E1

Description

Category: Aromatics, Heterocycles, Intermediates /// Application Notes: 2-Amino-3,5-dibromopyrazine is used in the preparation of conjugated polymers for neurotoxin detection. 2-Amino-3,5-dibromopyrazine is an intermediate in the preparation of rho kinase (ROCK) inhibitors. /// References: Thomas, J. et al.: Polym. Prepr., 46, 1211 (2005)| Henderson, A.J. et al.: Bioorg. Med. Chem. Lett., 20, 1137 (2010)|
