

(R,R)-N-(2-Amino-1,2-diphenylethyl)-p-toluenesulfonamide

Art. ID TRC-A607875-1G
Unit 1 g
Deliverydetails No Dangerous Good /not restricted

Description

Category: Amines, Aromatics, Catalyst, Pharmaceuticals, Intermediates and Fine Chemicals, Sulfur and Selenium Compounds /// Appearance: White Solid /// Application Notes:

(R,R)-N-(2-Amino-1,2-diphenylethyl)-p-toluenesulfonamide is used as a catalyst in stereoselective preparation of aromatic ketone derivatives as well as other chiral organic compounds. /// References: Tanis, S.P. et al.: Tetrahed. Assym., 17, 2154 (2006)| Morris, D.J. et al.: Tetrahed. Lett., 51, 209 (2010)|
