

N-(2-Aminoethyl)-5-chloroisoquinoline-8-sulfonamide Dihydrochloride

Art. ID TRC-A608851-5MG
Unit 5 mg
Deliverydetails De Minimis UN2811 III E1

Description

Category: Inhibitors, Protein Kinase Inhibitors and Activators /// Appearance: Light Beige to Pale Yellow Solid ///
Application Notes: Found to have a potent inhibitory action against casein kinase 1 completely with respect to ATP and a much weaker effect on casein kinase 2 and other protein kinases. /// References: Hidaka, H., et al.: J. of Biol. Chem., 264, 9, 4924 (1989)
