

4-Amino-5-fluoro-1-(2,3-di-O-acetyl-alpha-D-ribofuranosyl)-2(1H)-pyrimidinone

Art. ID TRC-A609535-10MG
Unit 10 mg
Deliverydetails No Dangerous Good

Description

Category: Carbohydrates and Derivatives, Impurities, Nucleotides, Bases and Related Reagents, Pharmaceuticals, Intermediates and Fine Chemicals /// Appearance: Off-White Solid /// Application Notes:

4-Amino-5-fluoro-1-(2,3-di-O-acetyl-alpha-D-ribofuranosyl)-2(1H)-pyrimidinone is an impurity of Capecitabine (C175650), which is an antineoplastic agent. Capecitabine is a prodrug of Doxifluridine (D556750). /// References: Muss, H., et al.: New Eng. J. Med., 360, 2055 (2009), Takahashi, S., et al.: Drug Metab.
