

(2R)-3-Amino-2-fluoropropanoic Acid-13C3

Art. ID TRC-A609632-0.5MG
Unit 0,5 mg
Deliverydetails No Dangerous Good

Description

Category: Amino Acids and Derivatives, Chiral Reagents, Isotope Labelled Compounds /// Appearance: White Crystalline Solid /// Application Notes: A stable isotope analogue of the catabolism of the anti-cancer drug 5-Flurouracil. /// References: Gani, D., et al.: J. Chem. Soc. Perkin Trans., 1363 (1985)
